CONTENTS OF HEREDITAS, VOLUME 133:1–3 (2000)

147 Almeida, M.C. de, Zacaro, A.A. and Cella, D.M.
Cytogenetic analysis of *Epicauta atomaria* (Meloidae) and *Palembus dermestoides* (Tenebrionidae) with Xy_p sex determination system using standard staining, C-bands, NOR and synaptonemal complex microspreading techniques.

263 Arias, E.
Spontaneous sister chromatid exchanges in chicken embryos.

217 Arnason, U., Gullberg, A., Schweizer Burguete, A.S. and Janke, A.
Molecular estimates of primate divergences and new hypotheses for primate dispersal and the origin of modern humans.

29 Assefa, K., Ketema, S., Tefera, H., Kefyalew, T. and Hundera, F.
Trait diversity, heritability and genetic advance in selected germplasm lines of tef [*Eragrostis tef* (Zucc.) Trotter].

55 Barros, R.M.S., Pieczarka, J.C., Brígido, M.D.C.O., Muniz, J.A.P.C., Rodrigues, L.R.R. and Nagamachi, C.Y.
A new karyotype in *Callicebus torquatus* (Cebidae, Primates).

211 Basso Da Silva, L. and Valente, V.L.S.
A temporal analysis of sexual activity in a natural population of *Drosophila willistoni*.

167 Bensch, S., Hansson, B., Hasselquist, D. and Nielsen, B.
Partial albinism in a semi-isolated population of great reed warblers.

59 Bubliy, O.A., Imasheva, A.G. and Loeschcke, V.
Half-sib analysis of three morphological traits in *Drosophila melanogaster* under poor nutrition.

183 Caixeta, E.T. and De Carvalho, C.R.
Chromomeric pattern of maize pachytene chromosomes after trypsin treatment.

249 Colomba, M.S., Vitturi, R. and Zunino, M.
Chromosome analysis and rDNA FISH in the stag beetle *Dorcus parallelipipedus* L. (Coleoptera: Scarabaeoidea: Lucanidae).

189 Colombo, P.C.
Chromosome polymorphisms and natural selection in *Leptysma argentina* (Orthoptera). IV. Survival selection acts on karyotype polymorphisms at the adult stage and before.

133 Dangasuk, O.G. and Gudu, S.
Allozyme variation in 16 natural populations of *Faidherbia albida* (Del.) A. Chev.

115 Edenhamn, P., Höggren, M. and Carlson, A.
Genetic diversity and fitness in peripheral and central populations of the European tree frog *Hyla arborea*.

179 Eklund, A.C. and Ober, C.
Polymorphic Microsatellite Markers within the MHC of *Peromyscus polionotus*.

195 Fagundes, V., Sato, Y., José De Jesus Silva, M., Rodrigues, F. and Yonenaga-Yassuda, Y.
A new species of *Calomys* (Rodentia, Sigmodontinae) from Central Brazil identified by its karyotype.

171 Falistocco, E., Torricelli, R., Feretti, D., Zerbini, I., Zani, C. and Monarca, S.
Enhancement of micronuclei frequency in the *Tradescantia*/micronuclei test using a long recovery time.

81 Gailey, D.A., Ho, S.K., Ohshima, S., Liu, J.H., Eyassu, M., Washington, M.A., Yamamoto, D. and Davis, T.
A phylogeny of the Drosophilidae using the sex-behaviour gene *fruitless*.

47 Gao, L., Chen, W., Jiang, W., Ge, S., Hong, D. and Wang, X.
Genetic erosion in northern marginal population of the common wild rice *Oryza rufipogon* Griff. and its conservation, revealed by the change of population genetic structure.

85 Génissel, A., Viard, F. and Bourguet, D.
Population genetics of *Chrysomela tremulae*: a first step towards management of transgenic *Bacillus thuringiensis* poplars *Populus tremula* × *P. tremuloides*.

175 Gündüz, İ., Tez, C. and Searle, J.B.
House mice with metacentric chromosomes in the Middle East.

201 Lourenço, L.B., Garcia, P.C.A. and Recco-Pimentel, S.M.
Cytogenetics of two species of *Paratelmatobius* (Anura: Leptodactylidae), with phylogenetic comments.

39 Martins, C., Wasko, A.P., Oliveira, C. and Wright, J.M.
Nucleotide sequence of 5S rDNA and localization of the ribosomal RNA genes to metaphase chromosomes of the Tilapiine cichlid fish, *Oreochromis niloticus*.

25 Ohashi, J. and Tokunaga, K.
Computer simulation analysis suggests weak balancing selection operative at the *MICA* locus.

159 Papeschi, A.G., Cohen, R.G., Pastorino, X.I. and Amat, F.
Cytogenetic proof that the brine shrimp *Artemia franciscana* (Crustacea, Branchiopoda) is found in Argentina.

73 Scavone, M.D.P., Oliveira, C., Trinca, L.A. and Foresti, F.
Synaptomenal complex analysis of four breeds of *Bos taurus taurus* x *B. taurus indicus* hybrids.

65 Solé, E., Mestres, F., Balanyà, J., Arenas, C. and Serra, L.
Colonization of America by *Drosophila subobscura*: spatial and temporal lethal-gene allelism..

19 Tanaka, K., Yamamoto, Y., Amano, T., Yamagata, T., Dang, V.-B., Matsuda, Y. and Namikawa, T.
A Robertsonian translocation, rob(2;28), found in Vietnamese cattle.

95 Tanaka, N., Yokoyama, T., Abe, H., Tsuchida, K., Ninagi, O. and Oshiki, T.
Cytogenetic analysis shows that the unusually large chromosome in the sex-limited p^B silkworm (*Bombyx mori*) strain consists of three chromosomes.

235 Volis, S., Mendlinger, S. and Orlovsky, N.
Variability in phenotypic traits in core and peripheral populations of wild barley *Hordeum spontaneum* Koch.

1 Wang, J.-B., Wang, C., Shi, S.-H. and Zhong, Y.
Evolution of parental ITS regions of nuclear rDNA in allopolyploid *Aegilops* (Poaceae) species.

255 Weiss, H. and Maluszynska, J.
Chromosomal rearrangement in autotetraploid plants of *Arabidopsis thaliana*.

9 Wilding, C.S., Grahame, J. and Mill, P.J.
Nuclear DNA restriction site polymorphisms and the phylogeny and population structure of an intertidal snail species complex (*Littorina*).

229 Yu, T.T., Skinner, D.Z., Liang, G.H., Trick, H.N., Huang, B. and Muthukrishnan, S.
Agrobacterium-mediated transformation of creeping bentgrass using GFP as a reporter gene.

123 Zhang, X.-Q., Salomon, B., Bothmer, R.V. and Díaz, O.
Patterns and levels of genetic differentiation in North American populations of the Alaskan wheatgrass complex.

105 Zivanovic, G., Andjelkovic, M. and Marinkovic, D.
Genetic load and coadaptation of chromosomal inversions. II. O-chromosomes in *Drosophila subobscura* populations.
